

Leverage Design Patents to Protect Graphical User Interfaces: Robert Katz Presents in Strafford Webinar

Banner Witcoff Shareholder Robert Katz will present in a Strafford CLE webinar on Thursday, June 6, from 1:00 to 2:30 PM EDT.

The webinar, titled “Leveraging Design Patents to Protect Graphical User Interfaces: Protecting the ‘Look and Feel’ of GUIs, Understanding Current U.S. and Global Prosecution Practices,” will examine the advantages of design patent protection over other forms of IP and offer best practices for obtaining meaningful design protection for GUIs.

Rob will present alongside Tracy-Gene Durkin of Sterne Kessler Goldstein & Fox. The duo will also cover the following topics:

- Best practices for the protection of GUIs in the U.S. and globally
- Updates on recent cases involving claims of infringement of design patents for GUI designs
- Protection for user interface designs of the future
